

Product Specialist – Technical and Engineering Qualifications

Salary - £35,000 to £45,000 Negotiable depending on knowledge, skills and experience + car/cash allowance
 Home based with regular travel

The Role

EAL have an exciting new opportunity for a Product Specialist – Technical and Engineering Qualifications.

Our Product Specialists are responsible for managing products throughout their life cycle ensuring products are produced at the right time to maximise their commercial value. They work on the technical development of products, identify business opportunities, recommend marketing strategies, and maintain awareness on competing products.

The Company

EAL is the specialist skills partner and awarding organisation for industry. We are committed to investing in the industries we serve and the careers of the people working within them. Through industry partnerships and years of experience supporting our core sectors, we have built unrivalled knowledge and understanding of employer skills needs. As a result, EAL’s skills solutions and qualifications are respected and chosen by employers to deliver real career benefits for all our learners.

Knowledge/ Skills/ Experience/Qualifications/Training
