

e-Learning Resource Developer - 12 Month Fixed Term Contract

Salary £30,000-£40,000

Home Based

An exciting opportunity as arisen within our Product department for an e-Learning Resource Developer on a 12 month fixed term contract starting as soon as possible. We are looking for someone who has 3 years in an e-learning related design role and qualified to level 4 in the relevant qualification(s).

As an e-Learning Resource Developer some of your key responsibilities will be:

- To develop tailored e-learning content that will then be owned by EAL
- Work with the Learning Resource Specialist in the successful development and delivery of eLearning modules
- Ensure successful development and delivery of the online learning materials for use by engineering trainees
- Using either existing materials that can be converted or to develop new materials by utilising the expertise of Product Specialists
- Develop materials to the defined specification and will present the finished products to the stakeholders for review and comment
- Assisting the Learning Resource Specialist in the management of content on the EAL platform
- Apply instructional design theories and practice to design and develop innovative and engaging e-learning modules (SCORM) in a structured and well written format.
- Develop and produce high quality technology-enhanced learning resources (e.g. interactive resources, summative and formative quizzes, digital narratives, high quality imagery and video content, etc.), for use within the virtual learning environment
- Take a proactive role to work with internal subject matter experts to script, design and develop e-learning content
- Develop robust assessments to evaluate effectiveness of learning content and use of the systems

Skills:

- Fully conversant in Adobe Captivate, Articulate or acceptable alternative
- Conversant in HTML 5
- An understanding of SCORM compliance and LMS systems
- Creative, with attention to detail
- Ability to work in a structured way
- Following and analysing organisational procedures
- Recognising areas for improvement and making recommendations
- Able to comprehend engineering concepts
- An understanding of learning styles and educational requirements
- Excellent written and speaking skills

Closing date – Monday 22nd April 2019

If this sounds like you and you would like to apply then please email Emily Williams – HR@semta.org.uk for further information and an application form.
